Route

St. Joe River
Route

- Lake Coeur d'Alene is located 2,128 feet above sea level.
- The lake is 25 miles long with over 135 miles of shoreline and an average of 120 feet deep.
- The name Coeur d'Alene is French for "heart of the awl" a name given to the Coeur d'Alene Indians by early French traders because of the natives' sharp trading practices.
- The lake is fed by two rivers, the St. Joe and Coeur d'Alene, and drained by the Spokane River. The lake's water level is controlled by a dam on the Spokane River at Post Falls.

All public cruises depart from Independence Point, located just west of The Coeur d'Alene Resort, adjacent to the Resort Clock Tower and City Park in downtown Coeur d'Alene. Reservations are not required.

Boarding on a first-come basis. Please board 1/2-hour prior to cruise. Tickets available at the dock or the Business Center at The Coeur d'Alene Resort or by calling 208-765-4000.
